EDUCATION

B.Tech

G.H Raisoni College of Engineering

06/2020 - Present

GPA: 8.27 (till 6th Sem)

Courses

- Information Technology

Study Program

Gorakh Singh College

Bihar

Courses

- HSC
- Score: 81.2 %

PERSONAL PROJECTS

CRM App (06/2023 - 07/2023)

- Created this application to manage records of students at one place.
- I have used Django as the backend framework and python. I have used Mysql For storing data. Also I have used inbuilt features of Django to create forms. I have made my frontend Using BootStrap

Weather Forecast (06/2023 - 06/2023)

- I have made this Weather Forecast Web Application using Django as Backend and Html, Bootstrap for frontend. I have used OpenWeatherMap API To Fetch The Data.

ChatBOT (06/2023 - 07/2023)

- It takes data from from OpenAI. I have used OpenAI API. It fetches data from OpenAI API
- I have used Da-vinci-003 model for creating this chatgpt like bot

Calculator (03/2023 - 03/2023)

- Created this simple calculator using boot strap and JavaScript
- I have used EventListeners to take input from both Keyboard and mouse

Drumstick (04/2023 - 04/2023)

- Created this beautiful Drumsticks app that play on keyboard command. I have used Javascript and Bootstrap to create this.
